

## Online meetings – quick, flexible, safe: **dONLINEZUSAMMENARBEIT 2.0**

These days, audio and video conferences have become commonplace. Be it to communicate with members of the public or with colleagues working from home or for training or further education purposes.

With **dOnlineZusammenarbeit 2.0**, you can communicate **online and independent of location** but with complete **sovereignty over your data**. Thanks to the **open-source software** and secure operation in **German datacentres**, you receive **complete digital sovereignty**.

Take advantage of the **safe alternative to face-to-face appointments** and say good-bye to conventional proprietary products.

# #Modern web conferences

Share your screen, upload files, use the **whiteboard**, **take notes and more**. Use the **mute button** for peace and quiet. But all participants can still request speaking time, either by using the **hand signal** function or sending a **chat message**. And **working in small groups** is also possible thanks to the option of creating **breakout sessions**.

#ORDER NOW.

## #ADVANTAGES

- Dial-up via **browser or telephone**
- Invite via **link or calendar invite**

- **Share:** desktop, browser, application, files
- **Breakout sessions** for small groups

- **Protect web conferences** with **passwords**
- **Adjust background**

- **Can also be used** across institutions
- **Participants don't need** their own account

### Order now.

Why not give it a go? Order your **dOnlineZusammenarbeit 2.0** now.
