

Web-based open-source workplace

dPHOENIXSUITE 3.0

Make your work simple, web-based & digitally sovereign

Writing emails, editing documents and conducting video conferences. Skills that can nowadays be taken for granted. But the resulting data are often stored on servers that are located abroad. So, you can't be certain what happens to them.

With **dPhoenixSuite 3.0**, you ensure your **digital sovereignty** and receive **full transparency**. Because this web-based workplace integrates the **best open-source programmes**. Be it emails, a calendar or contact management, a high-performance office and file-sharing or videotelephony incl. messaging: all data remain in a **secure cloud on servers in Germany** and under **your control**. At the same time, you can keep working as usual – **online, location-independent, alone or in a team**.

Easy switching between applications

You no longer need to find the right balance between **data sovereignty, independence and convenience**. All dPhoenixSuite 3.0 modules are **intuitive to use** and can be accessed via a **uniform navigation**. This way, you can easily switch between the different applications.

#**ORDER NOW.**
